

TalentPool

**A new way for start-ups and SMEs
to build their teams**

Product Information 2018

Who we are

We started TalentPool because we saw that recruitment was broken - for both candidates and employers. The status quo is inefficient and, very often, far too expensive. TalentPool is changing this.

We help businesses to build their teams, both interns and permanent hires. The TalentPool platform gives our hundreds of SME clients unrivalled reach, the matching expertise of a good recruiter and a very positive overall experience.

We and our team look forward to working with you.

Tom Davenport & Andrew Lavelle – Co-Founders

With TalentPool, everyone we speak to has the skills and experience for the job. Ensuring that quality lets us get on with finding the perfect candidate without wasting time.

Digital Product and UX Director at Papier

I can rely on TalentPool to send me good quality candidates. Of all the recruitment sites I have used, it seems to do a better job of sourcing the right people.

Define your role

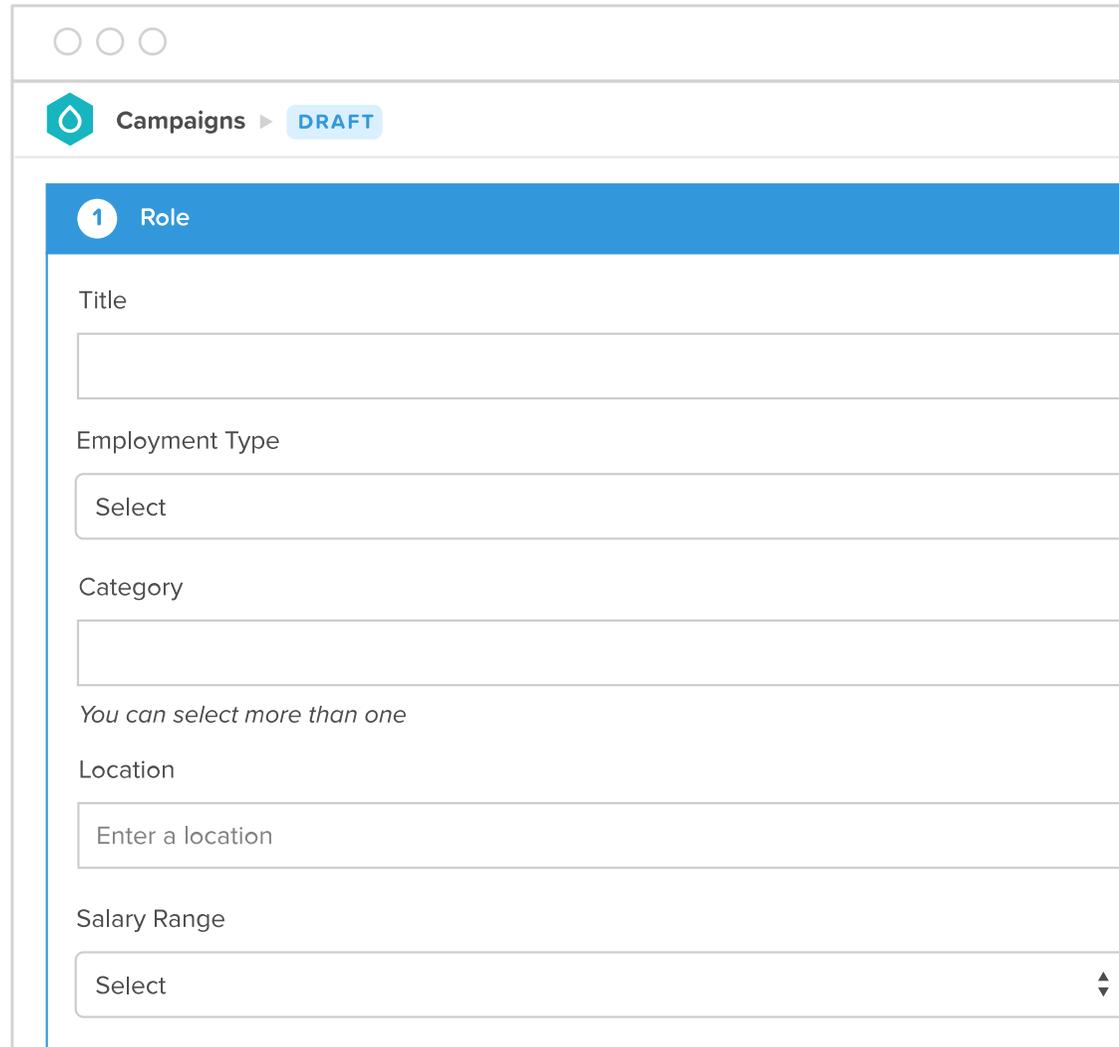

To start off, simply enter some basic information such as the location, salary, start date and sector.

Where do we source our members?

The TalentPool team spend a huge amount of time and effort to make sure our membership is right for our clients. We have arrangements with 20 of the top UK universities who encourage their students and graduates to use our platform. We also use a variety of channels (principally digital marketing) to make sure prospective candidates have what our employers are looking for. We are very targeted in who we market to - from particular university societies to online communities, we know that getting this right is fundamental to our success.

TalentPool is a god-send. It is by far the most effective and easy to use tool out there for recruiting.

The screenshot shows a web interface for defining a role. At the top, there are three window control buttons (minimize, maximize, close). Below them is a navigation bar with the TalentPool logo, the text 'Campaigns', a right-pointing arrow, and a blue button labeled 'DRAFT'. The main content area is titled '1 Role' in a blue header. Below the header, there are several form fields: 'Title' (a text input field), 'Employment Type' (a dropdown menu with 'Select' as the current value), 'Category' (a text input field with a note below it stating 'You can select more than one'), 'Location' (a text input field with the placeholder text 'Enter a location'), and 'Salary Range' (a dropdown menu with 'Select' as the current value and a small up/down arrow icon on the right).

How it works: Step 3

Receive applications

Sort through your applications in your TalentPool account and choose which candidates to connect with. We aim to provide you with a manageable shortlist of top quality applicants.

How do I know when a candidate has applied?

Whenever a TalentPool member applies to your role, you will be notified by email, with the application attached and the option to categorise them there and then. You will also be able to login to your account and see it there.

How will TalentPool know when I hire one of your members?

Our clients tell us directly. Our candidate tracker will identify any unreported hires.

The screenshot shows a web interface for managing applications. At the top, there's a navigation bar with 'Campaigns', 'Account Manager', a 'LIVE' status indicator, and 'Applications'. Below this, there are filters for 'Unsorted (4)', 'Connected (6)', and 'Rejected (2)'. A 'Select Multiple' button is visible. The main area displays a list of candidate profiles:

- Rachel Roberts**: 1st University of Leeds | History
- William Schroeder**: 2:1 University of Durham | Economics with Management (highlighted in blue)
- Jack Ward**: 2:1 University College London | Geography
- Camille Hettinger**: 2:1 (Predicted) University of Manchester | Politics
- Jo Grady**: 1st University of Bath | English Literature
- Adrian Weimann**: 2:1 University of Edinburgh | Classics

The detailed profile for **William Schroeder** is shown on the right, including:

- Contact**: 0753 295 5843 | bill.smith@gmail.com
- Profile**
- Education**: 2017 University of Durham, BA Economics with Management
- Languages & Skills**: Fluent French, Intermediate Spanish, Intermediate English
- Application**
- Why do you want to work at Opseon?**: I am interested in working for Opseon first and foremost because as a recent graduate to really have an impact on the business's growth. I've been keen to learn more about the inner workings of a small business. Given my previous experience as a Social Media Intern, I believe this is a great foundation to enable me to thrive in the position.
- How would your friends describe you?**: My friends would probably describe me as optimistic, social, and someone who enjoys meeting and talking to new people. I also tend to be outgoing, which is why I believe that I am well suited to this role.

What candidates say about us

The TalentPool process is swift and effective. I had an interview within a couple of days... a completely different experience from other traditional platforms.

Business Development Executive at Ninety CIC

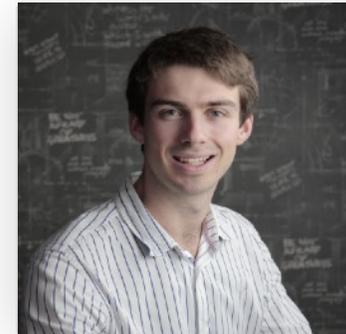

Been recommending TalentPool to everyone I know! I think your website is slick and a pleasure to use. Saved me lots of time and hassle going through job websites so the whole experience was fab for me! I owe you guys!

Community Executive at MedShr

Prior to signing up with TalentPool, my job hunt was time-consuming and stressful, and the suggested jobs I received from recruiters often resulted in me applying for jobs I wasn't particularly suitable for. My experience using TalentPool could not have been more different.

Project Manager at VoxPopMe

TalentPool enabled me to find a lot of exciting small companies that were actively hiring, which would have taken ages to trawl through myself. The email notifications are much more specific and less obtrusive than other recruiters.
